### OBJECTIVE

Logistics Manager for an international distribution company where logistics skills and supervisory ability will enhance operational effectiveness and profitability.

### ACCOMPLISHMENTS

**Logistics** Assisted in directing logistics support operations of nine Federal Aviation Administration sites and four Air National Guard units. Executed the redistribution of 2,500 items of equipment from deactivating sites. Optimized aircraft repair process, decreasing cycle time from 72 to 12 hours and costs by 28%. Contributed to development of the first computerized Air National Guard mission critical logistics reporting system.

**Distribution** Directed the requisitioning and control of aircraft parts to support a fleet of 54 aircraft and 680 vehicles. Cited by senior leaders as a major contributor to the improved efficiency of warehouse operations. Designed and developed the first Air National Guard inspection checklist for quality control of warehouse and distribution programs, thereby reducing customer complaints by 55 percent.

**Supervisory** Led and guided four inspectors in performing quality control evaluations of 240 line personnel. Achieved increasing proficiency without deviating from evaluation standards. Coordinated technical training for approximately 300 personnel. Prevented the loss of \$109,000 in equipment assets by enforcing strict accounting and control procedures.
