PROFESSIONAL PROFILE

Over 20 years of extensive analytical experience in various facets of security and intelligence operations. Combine strong organizational and communication skills with excellent qualifications in the development of security plans and policies. Skilled personnel manager and budget administrator. Core competencies includes:

- Scientific and Technical Intelligence
- Personnel Training
- Security Training
- Operations & Personnel Security
- Electronic Warfare
- Financial Management

MILITARY EXPERIENCE - U.S. Air Force, 1983 to Present

Areas of Expertise:

Security Operations Planning

- Authored several major Air Force documents impacting security and intelligence operations worldwide.
- Hosted two intelligence planning committees of multi-disciplinary intelligence and operating management personnel challenged to enhance Air Force security and operations planning worldwide.
- Provided high-level security consulting support on advanced electronic warfare counterintelligence systems

Intelligence Collection & Analysis

- Directed large-scale intelligence research, collection, and analysis, and dissemination operations to provide top management with information regarding potential threats and breeches to security
- Assisted in the development of an advanced, airborne data collection system with web interface. New system was found to be more than five times accurate than any previous system.

Personnel Training & Development

- Designed and led training programs in security and intelligence for operations, management, and executive level personnel
- Trained, scheduled, supervised, and evaluated the work performance of over 200 personnel.

JOHN JONES**Page 2 of 2*****Financial Management***

Participated in the development of a \$10 million Research and Development budget involving classified satellites.

Security Project Highlights

- Developed processes to maintain control of more than 50,000 sensitive security documents.
- Managed systems development and implementation of a project to automate a large technical scientific library and integrate advanced optical data technology for long-term document retention.
- Built cooperative working relationships with government agencies worldwide to facilitate the timely exchange of information critical to intelligence and security operations worldwide.

EDUCATION & TRAINING

- M.S. Space Sciences, Air Force Institute of Technology, 1993
- B.S. Electrical Engineering, Penn State University, 1983
